## Results

1. Providers should expect the COVID results within 24 to 48 hours typically after the patient lab is drawn.
2. Results can be viewed as you normally review results from Rush, either in the in basket or in the patient's chart. External providers should have results faxed to their primary office.
3. The ordering provider should communicate results with their patients as appropriate.
4. Please call 2-HELP if you experience any issues.
