

Faisal Hasan, MD

Clinical Division Chief of Cardiology
Co-Director, Cardiovascular Service Line
Rush University Medical Center

Faisal Hasan, MD, is the clinical division chief of Cardiology and co-director of the Cardiovascular Service Line.

Hasan is an interventional cardiologist trained in advanced coronary and peripheral vascular interventions. He specializes in treating ischemic heart disease, structural heart and valve disease, invasive coronary imaging, cardiomyopathy, coronary interventions and endovascular therapies for peripheral artery disease. Prior to joining Rush, Hasan was vice chair of the Heart and Vascular Institute at Cleveland Clinic Abu Dhabi, and helped establish a state-of-the-art extension of the Cleveland Clinic's model of care in the Middle East.

His clinical interests include endovascular therapies for complex lower extremity peripheral artery disease and percutaneous interventions for coronary artery disease including chronic total occlusions. Hasan has focused on treating patients with polyvascular disease and developing collaborative programs to manage this complex subset of patients.

His current research interests include clinical outcomes in patients with coronary artery disease and peripheral vascular disease, with a focus on global disparities in cardiovascular disease. He has extensive experience in optimizing quality and safety in the cardiac catheterization laboratory. Hasan's work has been published in leading cardiovascular journals, and he has presented abstracts at major national and international meetings. He serves as a peer reviewer for several heart and vascular journals.

Education

Medical School

Aga Khan University Medical
College, Karachi, Pakistan

Fellowships

Yale University, Yale New Haven
Hospital, New Haven, CT

Harvard Medical School, Beth
Israel Deaconess Medical Center,
Boston

Residency

Saint Louis University Hospital

Clinical Interests

- Cardiac and peripheral vascular diseases
- Coronary interventions
- Minimally invasive complex cardiac and vascular procedures

Conditions Treated

- Cardiomyopathy
- Ischemic heart disease
- Peripheral artery disease
- Structural heart disease
- Valve disease

Location

Rush University Medical Center
1725 W. Harrison St.
Suite 1159
Chicago, IL 60612
